

AGEL: THE NUTRITIONAL SUPPLEMENT REVOLUTION

Since 2005, Agel Enterprises, LLC (www.agel.com) has revolutionized the world of nutritional supplements by creating a unique line of patented suspension gel products. Headquartered in Lehi, UT, Agel distributes its Gelceuticals™ line in over 60 countries.

Using networking marketing with strong incentive plans to expand its customer reach within the \$100 billion health and wellness industry, Agel stands apart from the competition.

SUSPENSION GEL TECHNOLOGY ADVANTAGES

Agel's Gelceuticals™ – nutritional supplements in a state of suspension in a gel – offer two main advantages over common pills and powder supplements:

1) Timing of the ingestion:

Agel gel packs are easy to carry around and don't need water to swallow like pills or mix like powder. That way you can take your supplements at the most optimal time to enhance their absorption and use of the nutrients.

2) Bio-availability of the nutrients:

The gel technology forces the critical nutrients to remain suspended in gel, thus optimizing their absorption in the digestive track. Some pills are so tightly compressed that they sometimes don't completely break down in the digestive system, not delivering precious nutrients to your body.

WHAT PEOPLE SAY ABOUT AGEL GELCEUTICALS™

"I've struggled with my weight for years, now Agel has changed my life. I lost 15 pounds in 6 weeks using FIT and exercising, and I'm still shedding pounds. I feel better, I look better, and my clothes fit better."
Linda Strom, Apple Valley, MN

"I've always had a hard time staying awake and focused after lunch. Now I take an OHM gel pack early in the afternoon when I start to feel down, and I'm alert and focused for the rest of the day. I feel re-energized and the best part is I don't feel terrible when the effect wears off."
Ryan Johnson, Salem, UT

"I hate swallowing pills! Luckily I discovered MIN. I love the taste, the gel is easy to swallow, and I can take them with me anywhere. Now I get the vitamins I need every day without the hassle."
KC Whetstone, Round Rock, TX

"I have an auto-immune disease called Sjogren's Syndrome, which causes weakness, tiredness, leg cramps, and lack of energy. No medication seemed to work for me and side effects included hair loss, inability to swallow and swollen joints. As soon as I started taking EXO, I immediately started to feel better. I then decided to start taking FIT to lose weight and GLO for my skin and hair. It's been 3 years and I have lost 37 lbs. and feel great! I'm also building a great business by introducing Agel products to others who want a healthier lifestyle."
Aurelia Castro, San Diego, CA
